

Aesculap Neurosurgery

Main Catalog

Aesculap Neurosurgery

Welcome!

We are delighted to present you our Aesculap main catalog for neurosurgery with our current product portfolio, including plenty of new products.

Aesculap Global Headquarter in Tuttlingen, Germany

Aesculap was founded in 1867 by Gottfried Jetter, a cutler by trade. Over more than 145 years, the small workshop and forge for production of surgical instruments in Tuttlingen, Germany developed into a global operation enjoying international success. Today, Aesculap is one of the four divisions of the B. Braun Melsungen AG, Germany.

Gottfried Jetter (fourth from right) founds Aesculap in 1867

Neurosurgery has always been an important field of activity for Aesculap. The close cooperation and open dialog with neurosurgeons all over the world is a central element of our corporate philosophy, „Sharing Expertise“.

Neurosurgical instruments appeared even in the first-ever Aesculap catalogs of 1887. Among the milestones for Aesculap Neurosurgery were the electric power system for trepanation (1935), the YASARGIL® aneurysm clips (1968), the pneumatic drill (1969), the CranioFix® clamp system for bone flap fixation (1997), the programmable MIETHKE® gravitational valve proGAV® (2003) and the KAIRison® pneumatic bone punch (2008).

The words „Made by Aesculap“ have gained worldwide recognition as a synonym for unrivaled quality and reliability. Each of our products is characterized by functionality and continuity. Through innovative new products and continuous development of existing products, we make sure that surgical interventions of the central nervous system are becoming ever safer and more efficient.

Still, we see ourselves not just as a manufacturer and supplier of products for the neurosurgical operating room. We see ourselves also as your everyday partner, supporting you with individual advice and service as well as training and updating opportunities through the global Aesculap Academy. Your success is our success. Therefore, our Aesculap representatives are there to meet and exceed your needs no matter where in the world you may find yourself needing to conduct neurosurgery. In fact you will find this level of service in more than 60 countries around the world today.

We are conscious of your and therefore our immense responsibility for the well-

Aesculap catalog published in 1887

being of the patient. And we are happy and proud that our products are helping to restore the quality of their lives. It is always a wonderful feeling to be of help in this endeavor, even if the contribution of our products is only a small one.

We look forward to joining you in shaping the future of neurosurgery. As a company we are large enough to be a world leader among the suppliers for neurosurgery. At the same time, we are small enough to be involved at the personal level with your specific requirements. This is our pride and obligation: to be there for you as a personal partner and in so doing, be there for your patient as well. We are happy to share our expertise with you!

KAIRison® pneumatic bone punch
